

## Specialty Pharmacy

If you have a health problem that needs to be treated with complex drugs, you can get personalized help from our specialty pharmacy team of experts.

### What is a specialty pharmacy?

Express Scripts is the company that handles processing of prescription drugs for your health plan. CuraScript fills the specialty drug prescriptions for Express Scripts. Specialty drugs are those drugs that come in different forms including oral (i.e., drugs taken by mouth, like pills or liquids) but are often injected, infused or inhaled. They most often need special storage and handling, need clinical monitoring, cost a lot of money and are given to a patient by a doctor or a nurse. If you use a specialty drug, our specialty pharmacy will send your drug to your home or doctor's office.

Our specialty pharmacy program can help people with chronic health conditions (health problems that last a long time) including:

- Asthma
- Cancer
- Crohn's disease
- Gaucher's disease
- Hemophilia
- Hepatitis C
- HIV/AIDS
- Infertility
- Multiple sclerosis
- Primary immune deficiency
- Psoriasis
- Pulmonary arterial hypertension
- Rheumatoid arthritis
- Respiratory syncytial virus (RSV)
- Transplant

### Our specialty pharmacy team

You don't have to manage your health problem alone. Our team of experts is here to help. They can work with you to help make sure your care always goes smoothly and safely.

- **Pharmacists:** The pharmacists are experts in medication management. They can tell you what to expect when you start a new treatment or if your prescription changes. If you have questions about how the drug you're taking works, what the side effects are or if there's a chance of any interactions with other drugs you're taking, the pharmacists can help. Pharmacists are on hand for urgent questions after normal business hours, too.
- **Nurses:** The nurses care about you and help track your treatment. They can help you manage side effects and help you to keep taking your medicines exactly as your doctor wants you to.

- **Patient Care Advocates:** Whether you need a refill of the drug you're taking or you just want some help with your health coverage, patient care advocates are here to help.
- **Reimbursement Specialists:** If, for some reason, you're not able to get a certain drug, these specialists can help you find financial assistance programs to help make sure you can get the drug that is vital to your good health.

### Coverage for your specialty drugs

Check your Summary of Coverage to learn about the coverage you have for certain specialty drugs. In order to save the most money on specialty drugs, you may have to use our specialty pharmacy. But you may be able to choose a specialty pharmacy from a list. Go to [anthem.com](https://www.anthem.com) to learn more about which drugs are covered by your drug plan and to learn more about our specialty pharmacy or the specialty pharmacy network. Or you can call the Customer Service number on your member ID card.

### We've made it simple to get started

If you want to use our specialty pharmacy, there are two easy ways to get started:

**By phone:** Call 800-870-6419, Monday - Friday, 8 a.m. - 10 p.m., Eastern time.

**By fax:** You can have your doctor fax your prescription(s) and a copy of your member ID card to 800-824-2642.
