Re: 2019 ACA Reporting Workshops

Please join us at this year's annual ACA Reporting Workshops! The Health Trust, in conjunction with the Maine Municipal Association, will once again offer a series of workshops designed to provide employers with a "refresher course" on the Affordable Care Act's reporting requirements. These workshops will be held around the state in January 2019, well in advance of the ACA's reporting deadline.

In this workshop, we'll walk you through the Form 1095-C and 1094-C reporting requirements for large employers. We'll also spend a few minutes talking about how the IRS has been reaching out to those employers that may be subject to a penalty, based on their earlier filings. And of course, we'll discuss the recent ruling by a Texas court that found the entire ACA to be unconstitutional. *(Just a hint for those of you hoping that the Texas court ruling means you won't have to file your 1095-Cs this year it doesn't.)*

The Form 1095-C and 1094-C reporting requirements, and the employer shared responsibility provisions, only apply to Applicable Large Employers – those with 50 or more full-time / full-time equivalent employees. As a result, these workshops are probably best suited to large employers.

Each workshop will include time for questions and answers. Space is limited, so sign up soon!
